

Confined Space Inspector

A unique opportunity to embrace technology, travel within Ontario, and work outdoors.

Come work at a rapidly growing engineering firm that is staffed with industry experts, has great benefits, and prides itself on developing our people.

The Company

Planview Utility Services is an engineering firm that provides engineering design, sub-surface investigation and geographical information related services to telecommunication companies and electric utilities. Our workforce is a mix of veterans of the industry and youthful enthusiastic technical resources. We have pride in our collegial culture and host multiple regular corporate sponsored social activities. Our embrace of the use of technology plays a large part in our success.

The Position

As a Confined Space Inspector, you will:

- Report to the Manager of Engineering and Structures;
- Coordinate work activities with Project Coordinators, CAD Designers, the Project Administrator, and Project Engineers;
- Perform the duties of confined space “entrant” or “attendant” as will be defined in the provided training and certification, in compliance with applicable confined space legislation. The typical confined spaces to be inspected are telecommunication maintenance chambers (manholes).
- Some of the duties (not all and not in any particular order) are;
 - Set up traffic control requirements
 - Set up the tripod / winch / cable / harness rescue equipment
 - Obtain confined space opening and closing numbers
 - Complete Confined Space Entry form / paperwork
 - Pump water from the confined space
 - Obtain gas detector readings
 - Capture and record structural and cable information from manholes
 - Ongoing development of our design standards and methodologies to further develop design and operational efficiencies;

- Interface directly with our clients and other third party resources to discuss, review and provide consultations for project requirements;
- Attend site meetings with clients or third parties as required;
- Adhere to strict project budgets and client deliverable dates;
- Other activities as assigned by supervisor, such as CAD and GIS support for example.

Resource Requirements

- Physically fit.
- Enjoy working outside, even in poor weather conditions.
- Strong problem solving and troubleshooting skills
- Excellent written and oral communication skills
- The ability to deal with multiple projects and conflicting deadlines
- Technician / Technologist diploma from an accredited educational institution
- Basic CAD skills (minimum)

Preferred Skills

- Canadian engineering work experience
- Experience with outside plant design of utilities (i.e. electric, gas, telecom, fibre optic)

The Location

Planview Utility Services has 3 offices – Markham, London and Ottawa. Our clients and their projects are based throughout the province. Travel is important to this position, and you may be working east, west or north of the GTA based on our clients' needs. The reporting office for this position is our Markham location.

Why You Should Apply

If you like to work as a part of a team, work alone, travel, contribute to infrastructure builds, work outdoors, receive competitive compensation, and be trained in current practices, then you should apply.

Note

Planview Utility Services Ltd is an Equal Opportunity Employer.

In accordance with the Accessibility for Ontarians with Disabilities Act, 2005 and the Ontario Human Rights Code, Planview Utility Services Ltd will provide accommodations to applicants with disabilities throughout the recruitment, selection and/or assessment process. If selected to participate in the recruitment, selection and/or assessment process, please inform Human Resources staff of the nature of any accommodation(s) that you may require.
